

Appendix 5. Results of Fisher's Exact Tests comparing binary responses to male and female playback. All Fisher's Exact results agreed with the results of our zero-inflated GLMMs. Bold values indicate significance at $p \leq 0.05$.

Response Variable	Fisher's Exact p-value
Male Approach	0.046
Female Approach	0.068
Male Song	0.194
Female Song	0.108
Male Jeets	0.026
